

# DELIVERING PREMIUM HOME HEALTHCARE TO YOUR DOORSTEP

Whether you need live-in care, daily nurse visits, or post-surgery recovery support — our nurses and caregivers are here 24/7.

# 1. Home Nursing Care

**Premium Home Healthcare from the comfort of your home. Whether you need live-in care, daily nurse visits, or post-surgery recovery support — our nurses and caregivers are here 24/7.**

- **Live-In Nursing**

Round-the-clock presence for clients who need full-time care and supervision.

Ideal for dementia, stroke, or post-op recovery.

- **Visitation Nursing**

Daily or weekly visits for wound care, medication, vitals monitoring, and more.

- **Travel Nursing**

Nurses accompany clients on local or international trips for safety and care continuity.

- **Hospital Aide Support**

Caregivers assist patients admitted in hospitals, especially when family can't be present.

- **Phone Consultations**

Get expert nursing or doctors guidance via phone from the comfort of your home.

- **Physiotherapy and rehabilitation**

Our in-home physiotherapy and rehabilitation services help clients restore mobility, reduce pain, and regain independence

“When a road is too rough, the best way to move faster on it, is to slow down!” SAINT 2011.

## 2. Dementia Specialist Care

Premium Home Healthcare from the comfort of your home, expert support for clients with Alzheimer’s and other memory-related conditions. Our team uses proven dementia care techniques to ensure safety, comfort, and a sense of dignity.

### Features Include:

- Memory stimulation & daily structure
- Safe environment setup
- Behavioural support
- Family training and education
- Personal hygiene, feeding, mobility care
- Dementia Café

## 3. 24-Hour Care Plans

**Full daily care including overnight support from trained caregivers or nurses. Best for high-dependency clients needing continuous attention and monitoring.**

### **What's Included:**

- Bathing, dressing, and personal care
- Medication management
- Monitoring for chronic or complex conditions
- Emotional support and companionship
- Night-time supervision and safety

## 4. Travel Nursing

Don't put life on hold — travel with peace of mind. Our travel nurses accompany you for local or international journeys, handling medications, emergencies, and personal care throughout your trip.

Popular Use Cases:

- Business travel for elderly or ill individuals
- Pilgrimage or family trips
- Repatriation with medical oversight
- Hospital transfers across states/countries

## 5. Hospital Aide Support

Compassionate support for patients during hospital admissions. Our aides or nurses provide bedside assistance, hygiene care, medication reminders, and emotional presence when family can't be there.

## 6. Phone Consultation Services

Need urgent medical advice or a second opinion? Speak to our nurses or doctors over the phone for health guidance, medication advice, and next-step care decisions.
